MEMORANDUM FOR:

SUBJECT   : Status Review of RAPID System

REFERENCE   : Your memo for D/OJCS dtd 20 Aug 75,
                  same Subject

1.   We agree with your decision to require [   ] STATINTL
to supply a complete inventory of the status of the RAPID
project. OJCS will provide assistance [   ] in preparing   STATSPEC
the project inventory questionnaire and in evaluating the in-
formation which results.   STATINTL

2.   As you stated in your memorandum, [   ] and
STATINTL [   ] are the most knowledgeable OJCS individuals con-
cerning the RAPID project. They will continue to provide
whatever support they can considering their current workloads.
Gene is heavily involved in SAFE and Fred, as you know, is
scheduled for an extended TDY soon. We will provide backup
support in the event that neither of them is available when
needed. In fact, it may be beneficial to get others, with a
a fresh prospective, involved from time to time.

3.   You may contact Fred and Gene directly, or in their
STATINTL absence, [   ] to arrange for OJCS participa-
tion in the RAPID project status evaluation.

                          HARRY E. FITZWATER   STATINTL
   Director of Joint Computer Support

Remarks:

Sent copies to
and asked for a meeting to discuss
the magnitude of the task and
their availability before responding.
Fred's out this week - will shoot
for early next week.

Done 8/21/75   GD

1-3
Believe Fred should handle biggest portion
of this request since Gene involved with SAFE.

ICS #20-18/9

20 August 1975

MEMORANDUM FOR: Director of Joint Computer Support

SUBJECT : Status Review of RAPID System

STATSPEC   REFERENCE : Your memo for [   ] dtd 17 Jul 75.
                          Subject: Consultant Services for [   ]
                          RAPID System   STAT

1. The discussions that you had in mid-July with [   ]   STATINTL
who is away on leave, on the matter of engaging the services of an
independent contract consultant led to a wide-ranging review of the
entire RAPID project. As a result, we have decided to postpone for a
short time taking action on a consulting contract relating to cutover
and testing.

STATINTL
2. Instead, we propose to require the system contractor,
[   ], to supply a complete inventory of the status of the
project which should allow us to appraise progress to date and to chart
the remainder of the life of the contract. OJCS assistance in preparing
the inventory questionnaire and your participation in evaluation of the
information the company will be requested to supply will be invaluable.

3. In the referent memorandum you kindly stated a willingness to
provide the services of [   ] has already   STATINTL
contributed significantly with his initial review in July and in later
recommendations before and after his visit to [   ] headquarters in STATINTL
California. We are grateful for the time he has already given our project
task force, especially in view of his responsibiliites as a division
officer and as he prepares for his upcoming temporary detail.

4. We would like to have Fred or Gene collaborate with [   ]   STATINTL
in drawing up an extensive questionnaire targeted at building a
complete inventory of the status of the system. After the [   ]   STATINTL

STATSPEC

staff has supplied the responses, we would then like Fred or Gene to work with a team in assessing the responses supplied by [   ] and   STATINTL
then to participate in briefing [   ] management on the team's findings.
The tasks involved would require about three weeks over the next two-
month period, including one or two trips to [   ] headquarters in   STATINTL
California. Since Fred will be unavailable during part of this period,
Gene could probably provide more continuing support. We believe it is
urgent that we get started on these tasks as soon as possible.
